Name _____

Saint Katharine Drexel

Katharine Drexel's family was very wealthy. Her parents believed that wealth must be shared with those who are in need. Katharine grew up watching her parents give of their time and money to others. Several times during the week, her parents would invite the poor into their home.

When Katharine was older, she wanted to help others, too. She became a nun. She used her time and spent her money helping Native Americans and African Americans. She started many schools so these people could get a free education

Like Katharine, we can help others in many ways. Think of some ways that you can help others. On the coin below, write or draw how you can help someone else.
